Dear Movement Disorders Enthusiast,

We are very proud to announce our 10th symposium this year - even more reason not to miss our 10 great talks and the fascinating and instructive videos you will be able to enjoy!

As usual, we start with the highlight of the Video Session on Thursday evening, followed by a very instructive programme on Friday - our internationally renowned speakers are Wolfram Schultz from Cambridge, Paul Krack from Geneva, Peter Brown from Oxford, Claudio Pollo from Bern and Lawrence Rajendran from Zurich.

After its warm welcome last year, we will continue with the „Swiss Young Neurologists“ session, this year given by Bogdan Draganski from Lausanne.

Last but not least we hear what worthwhile projects were funded by Parkinson Schweiz and we will be able to honor the winners of the Best Movement Disorders Paper Award for 2017.

Don’t leave before Selma Aybek and Pierre Burkhard have brought you up to speed concerning the best papers and videos published this year.

We are very much looking forward seeing you in Lucerne.

Daniel Waldvogel, Francois Vingerhoets, Christian Lüscher, Selma Aybek, and Christian Baumann

Thursday, August 30

14.00-16.00 h Meeting «Research Committee Parkinson Schweiz»

Members are cordially invited by Stephan Bohlhalter
(special invitation only)

16.00-17.00 h General Meeting

Scientific Committee Foundation for Research in Parkinson and Movement Disorders: you are cordially invited by the Council of the Foundation (special invitation only)

Official Start of the Symposium

18.00-19.00 h Arrival & Welcome

19.00 h **Video session with sit-down dinner**

Moderation: Daniel Waldvogel & Michael Schüpbach
Various Presenters

Friday, August 31

8.30 h Arrival & Registration

9.15 h Welcome & Introduction Daniel Waldvogel & François Vingerhoets

9.30 h **Session I: Neuropsychological Aspects of Parkinson's Disease**

Moderation: Christian Lüscher
Basic science: Prediction error of reward - Wolfram Schultz
Clinical science: Apathy - Paul Krack

10.30 h Coffee Break

11.00 h **Session II: Advances in Electrophysiology**

Moderation: Christian Baumann
Basic science: Using brain signals to making deep brain stimulation smarter - Peter Brown
Clinical science: Frontiers in functional neurosurgery - Claudio Pollo

12.00 h Lunch

13.00 h **Session III: Eberhard Ketz Honorary Lecture for Neurorehabilitation in Movement Disorders**

Moderation and Coordination: Matthias Oechsner
Role of nutrition in synapse loss in ALS/FTD - Lawrence Rajendran

13.40 h **Parkinson Schweiz: Research Projects 2017-2018**

Moderation: Stephan Bohlhalter
Cortical slow wave activity and basal ganglia function in Parkinsonian rats - Salvatore Galati
Neural basis of limb kinetic deficits in Parkinson's disease: an ASL study - Stefanie Kübel

14.20 h **Best Movement Disorders Paper Award 2017**

Unrestricted educational grants donated by Zambon Switzerland and Biotest Switzerland
Moderation: Christian Lüscher
Sodium oxybate for excessive daytime sleepiness and sleep disturbance in Parkinson Disease: a randomized clinical trial – Büchele et al (2018)
Rapid integration of artificial sensory feedback during operant conditioning of motor cortex neurons – Prsa et al (2017)

15.00 h Coffee break

15.30 h **Session IV: Swiss Young Neurologists**

Moderation: Gerd Tinkhauser
Brain imaging in movement disorders: current practice and what to expect for the future - Bogdan Draganski

16.00 h **Session V: Year in Review**

Moderation: Daniel Waldvogel
This Year's Best Papers - Selma Aybek
This Year's Best Videos - Pierre Burkhard

17.00 h **Farewell**
