

Lucerne, September 1–2, 2011

3rd Swiss Movement Disorders Symposium

Welcome to Lucerne for the 3rd Swiss Movement Disorders Symposium!

This year, we will explore fields of movement disorders where expanding knowledge in basic science starts to have an increasing impact not only on the understanding but also on the practical management of diseases.

In keeping with our tradition, these topics will be addressed jointly by Swiss and international speakers.

Alain Kaelin will give us an update on the current basic science knowledge of the mechanisms leading to Dystonia and Marie Vidailhet, who helped us initiating this symposium three years ago, kindly accepted to share her immense clinical knowledge on Dystonia with us.

Almost two decades after the discovery of the gene of Huntington Disease, Nicole Déglon, will bring us up to speed on the current potential therapeutic developments that were initiated by this discovery and Hans Jung will present the current clinical perspectives.

We would like to thank the scientific and organizing committees, the speakers and the sponsors for their help in preparing and presenting this symposium, which is becoming a tradition for movement disorders enthusiasts in Switzerland.

Hoping that you will enjoy the program we have lined up as much as we enjoyed preparing it, we are looking forward to seeing you at the symposium in Lucerne.

Claudio Bassetti

François Vingerhoets

Daniel Waldvogel

Scientific program

3rd Swiss Movement Disorders Symposium

Lucerne, September 1–2, 2011

Thursday September 1

Pre-Meetings

- 14.30 h – Meeting «Research Committee Parkinson Schweiz»
16.00 h *Members are cordially invited by S. Bohlhalter. On special invitation only.*
16.00 h – Meeting Swiss Multicenter Studies Group
17.30 h *You are cordially invited by C. Bassetti, F. Vingerhoets and D. Waldvogel.*

Official Start of the Symposium

- 18.00 h Arrival and Welcome «Apéro riche» (1st course of the dinner)
19.00 h **Video-Session with sit down dinner**
Moderation: P. Burkhard, M. Vidailhet
Video presentations by: Ch. Baumann, D. Benninger, P. Fuhr, S. Galati, G. Kägi, M. Oechsner, M. Schüpbach

Friday September 2

- 9.00 h Welcome/Introduction
C. Bassetti/F. Vingerhoets
9.15 h **Session I: Dystonia**
Moderation: C. Bassetti
Basic science: A. Kaelin
Clinical science: M. Vidailhet (France)
10.15 h Coffee break

- 10.45 h **Session II: Huntington's Disease**
Moderation: F. Vingerhoets
Basic science: N. Déglon (France)
Clinical science: H. H. Jung
- 11.45 h Lunch
- 13.00 h **Session III: Movement Disorders Research in Switzerland**
Parkinson Schweiz Research Projects 2011–2012
Moderation: C. Bassetti, S. Bohlhalter
- Plasticity in Levodopa-induced dyskinesias: A. Kaelin
 - Immunosuppression and stem cell transplantation: J. Villard
 - Autonomic dysfunction in Parkinson's Disease: Ch. Baumann
 - Cell replacement therapy in Parkinson's Disease: V. Tieng-Caulet
- Swiss Multicenter Studies 2011–2012
Moderation: C. Möller, C. Wider
- HD phenotype: Registry vs Clinical trials, Swiss view: J.-M. Burgunder
 - SwissMove: an initiative on PD and other movement disorders: C. Wider
 - Rasagiline: sleep and wake functions in PD: C. Möller
- 14.15 h Workshop 1: **Genetic testing should be performed routinely in neurodegenerative diseases**
Pro: C. Wider; Contra: J.-M. Burgunder
- 15.15 h Coffee break
- 15.45 h Workshop 2: **PSP, Richardson-Syndrome or PSP-Parkinson: Should we change the nomenclature?**
Pro: D. Waldvogel; Contra: G. Kägi
- 16.45 h **Session IV: This Year's News in Movement Disorders**
P. Pollak
- 17.15 h Farewell

The 4th Swiss Movement Disorders Symposium will take place in Lucerne on August 30–31, 2012!
