11th Swiss Movement Disorders Symposium

Lucerne

29th – 30th August, 2019

© Lucerne Tourismus

Dear Movement Disorders Enthusiast,

We are very proud to announce our programme for the Swiss Movement Disorders Symposium, now in its 11th year.

The event will begin with an informative and entertaining video session and dinner on Thursday, 29th August, followed by a day of talks from internationally renowned speakers on Friday, 30th. Our highlights include sessions with Adriano Aguzzi, Mathieu Anheim, Bettina Balint, Brit Mollenhauer and Georg Ebersbach.

Our popular “Swiss Young Neurologists” session will focus on the theme of “Tics and Tourette Syndrome”, featuring a talk by Wolfram Kawohl.

We also look forward to honouring the best movement disorders paper from 2018/19 and learning about the valuable research projects funded by Parkinson Schweiz over the last few months.

Alain Kälin and Ines Debove will wrap up the meeting with the published highlights of the year.

It is all “clinically relevant“, so there is no excuse not to come to this fabulous symposium!!

We look forward to seeing you in Lucerne

Daniel Waldvogel, François Vingerhoets, Claudio Bassetti,
Christian Lüscher, Selma Aybek, Christian Baumann

The symposium is kindly supported by

Patronage Partners

Co Sponsors

Thursday, 29th August

14.00-16.00 h Meeting «Research Committee Parkinson Schweiz»

Members are cordially invited by Stephan Bohlhalter (special invitation only)
